## Virginia Military Institute

DISTINCTIVE FEATURES.  
The attention of all who are interested in education is respectfully called to the special advantages now offered by the Virginia Military Institute. Among these advantages are:  
I. Its Distinctive Military System. This has secured for it the name of "The West Point of the South." It leads to muscular development and physical health by an enforced regularity in food, sleep and exercise. It creates habits of promptitude, order, discipline and subordination. It fosters self-reliance and force of personal character by requiring all extraneous distinctions, and casting each youth, whatever his antecedent circumstances, into the uniform and homelike environment of the school.  
II. Its Distinctive Academic Curriculum. This courses the study of English, History, French or Spanish, German or Latin, Mathematics, Physics, Chemistry, Mechanics, Surveying, Chemistry, Drawing, Law, Economics, Literature, Practical Science.  
III. Its Technical Scientific Courses. Provision is made for the members of the second class to elect between the courses of civil engineering, of analytical and applied chemistry and of electrical engineering. These courses are of one and a half years' duration, and are illustrated by constant laboratory practice. The department of engineering is thoroughly equipped with instruments and models; and the chemical, physical and mineralogical laboratories have all appliances for thorough practical instruction.  
IV. Its Distinctive System of Instruction, namely, dividing of classes into sections, whereby the student acquires a more accurate and each secures a share of the personal attention of the instructor. The success of the educational work of the school turns largely on this method.  
V. Its Economy. The expenses are: Pay cadets \$12 a year; State cadets \$15 a year. This estimate includes tuition, board, fuel and light, washing, room rent, medical attendance of the most careful character, clothing, books, stationery and all necessary expenses, and falls below that of any institution of like grade in this country. This estimate is exclusive of our national military service, which is a part of the training of the most costly.  
Degrees B. A. and B. S. conferred in course.  
For further information and catalogue apply to the Superintendent.  
GEN. E. W. NICHOLS, Lexington, Va.
